Anti-Splashing Tapes

Anti-splash tapes were designed with the aim to prevent pipeline installations from oil sprays in accordance with the latest solas consolidate Edition 2004 regulation ii-2/4.2.2.5.3. Specially constructed to withstand high temperatures and high pressure, they serve as a protection against An uncontrolled spraying of flammable liquids onto hot surfaces, which might be a cause of fire or explosion.

Accordance with regulation II – 2/4.2.2.5.3 of SOLAS

ABS DNV ClassNK RINA KR Lloyd's Register

Applications: hot water or steam pipes, pipe joints, flanges, boilers and engine installations
Material: aluminum foil, glass fiber cloth, special adhesive, separator film

Item	Characteristics
Model	TH-AS100
Width	35-1000mm
Length	10 Mtrs
Thickness	0.355mm ±0.02mm
Pressure	1.8 Mpa(MAX)
Temperature	160 Degc(max)

Tape Material:
- Aluminum foil
- Glass fiber cloth
- Special adhesive
- Separator film

Aluminum Putty (AU)

Aluminium-filled epoxy putty for dependable non-rusting repairs to aluminium. Casting,machinery and equipment Repairs air conditioning system components.

Code	Description	Unit
CT812266	Aluminum Putty(FS-110AU) 500g	Set

Wear Resistant Putty (WR)

Wr high wear-resistant,self-lubricating compound for repairs requiring smooth surfaces Against sliding wear.

Code	Description	Unit
CT812281	Wear Resistant Putty(FS-110WR) 500g	Set

Wear Resistant Putty (WR-2)

WR2 smooth,non-rusting,all purpose epoxy putty for repairs requiring low friction Finishes,excellent wear resistance and protection from bi-metallic corrosion.

Code	Description	Unit
CT812286	Wear Resistant Putty(FS-110WR-2) 500g	Set

Bronze Putty (BR)

For repairing bronze and brass bushings,shafts,castings and equipment parts. Ldeal for repairing and rebuilding areas where brazing would be undesirable or impossible.

Code	Description	Unit
CT812290	Bronze putty(FS-110BR) 500g	Set

Stainless Steel Putty (SS)

Stainless steel-filled epoxy putty ideal for patching, repairing and rebuilding stainless Steel food processing equipment. Lt is non-rusting and bonds to ferrous and Non-ferrous metals.

Code	Description	Unit
CT812292	Stainless Steel Putt(FS-110SS) 500g	Set

Resin & Activator (RUA)

Combination with glass cloth or tyre it can be used for amination, reinforcement and Repairs. Resistant to water, oil, alcohol, most acids and bases and al tvoes of polution.

Code	Description	Unit
CT812301	Resin & Activator(FS-RUA) 500g	Set

Super Metal Putty (SUP)

Used for hydraulic rams, worm shafts, oversize housings worn keyways, damaged engine Blocks, tracked and eroded flange faces.

Code	Description	Unit
CT81235101/812351	Super Metal Putty(FS-110SUP) 500g/1Kg	Set

Strong-Back Steel Putty (SBP)

Specifically designed for repairing localized corrosion damage in pumps, valves, pipelines, and related components.

Code	Description	Unit
CT812310	Cordobond Strong-Back Steel Putty(FS-110SBP) 500g	Set

Pneunatic Casualty Winches

Rescue Tripod & Winch

For tripod it own, it is suitable used on confined spaces, manholes, tanks, hatches
And other below ground work for fall arrest protection

Code	CT592151
Model	SP-RTW-250
Lift Capacity Max	250Kg
Material	Aluminum

Pneumatic Casualty Winches

Areas of use: tankers and freighters,for hoisting injured men and various materials
From tanks,holds,etc
Built with aluminum alloy frame, equipped with air winch and anti-falling device

Code	CT590609
Model	SP-RTW250AIR
Lift Capacity Max	250Kg
Air Inlet	1/2"
W.P	7.5Bar
Material	Aluminum

Pneunatic Driven Winches

• Speedy removal of scale and sludge
• Standard tank cleaning opening
• Galvanized steel davit assembly

Code	CT590603	CT590605	CT590607

2.Cargo Cleaning Tripod

- Tripod With Heavy Duty Castor Wheels
- Telescopic Pole Spary Gun 18 mtrs
- 3 Nozzles
- High pressure jetting outlet hose

Addressing the core pain point of high tank cleaning difficulty that customers face during warehouse cleaning processes, this product offers a targeted solution to facilitate efficient completion of cleaning operations:

- **Flexible Adaptation to Multiple Devices:** It can be easily connected to low-pressure chemical diaphragm pumps and is compatible with high-pressure cleaners of any model. No additional complex adapters are required, lowering the threshold for equipment usage.
- **Powerful Spray Coverage Capability:** It can stably spray cleaning fluid to any height within 20 meters, enabling full coverage of surfaces in different areas of the warehouse and eliminating cleaning blind spots.
- **Significant Optimization of Cleaning Experience:** Leveraging the above advantages, the originally tedious warehouse surface cleaning work is transformed into a convenient, efficient, and safe operation process. This greatly reduces cleaning time and labor costs while minimizing safety risks during operations.

Sprial Type Ventilation Tubes

- Made of pvc tarpaulin canvas.
- A lightweight, highly flexible duct ideal for improving the efficiency of blowers especially in confined creas.
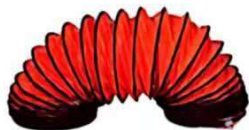

Code	Tube Diam	Length
CT591481-591482	200MM	
CT591483-591484	300MM	
CT591485-591486	400MM	5/10 Mtrs
CT591487-591488	500MM	
CT591489-591490	600MM	

Ventilation Tubes For EX Ventilation Fan

- Flame retardant, electrostatic conductivity
- Pvc conductive cloth, coupled with spring steel wire

Code	Tube Diam	Length
CT591421	200MM	
CT591422	300MM	5 Mtrs

Pneumatic Diaphragm Pumps

SP-MG series pneumatic diaphragm pump not only can exhaust the flow liquid,but also can convey some uneasy flowed medium, with the mem... self-pumping pump, diving pump,shield pump,slurry pump and impurity pump etc.

Aluminium Alloy Pneumatic Diaphragm Pumps

- Standard Casing: Aluminium Alloy
- Diaphragm: BN

Code	Model	Fluid Inlet Size	Fluid Out Size

Pneumatic Line Thrower

- Light in weight, easy to carry and install.
- Simple in structure, with no vulnerable parts, and easy to maintain.
- The pressure tank is small in size and can be charged quickly.
- The projectile made of nylon material has good explosion-proof performance and can be used on oil tankers.

Lifeboat Repair Kits

At sea, safety always comes first. Lifeboats are a means of saving lives in times of crisis, and any small leak or damage can be life-threatening. Faseal's lifeboat repair kits is designed specifically to deal with leaks or damages, in the majority of cases, it is possible for the average boat owner and handyman to carry out a speedy, safe and effective repair safeguard the safety of crew and passengers.

REPAIRING

Depending On The Severity Of Impact A Reinforced Plastics Hull Is Likely To Sustain Damage Of Four Distinct Types.these Are Hairline Fractures, Grazes, Impact Fractures.

Repairing Hairline Fractures   Repairing An Grazes   Repairing An Impact Fracture

Wire Rope Cleaner & Lubricator Kit

Suitable for wire rope diameter(mm)
☑ **6-45** ☑ **45-60** ☑ **60-110**

The wire rope lubricator is composed of wire rope clamp,wire rope sealer, oil inlet quick connector and othercomponents. Through the pneumatic grease pump, the pressure grease is stored in the sealing chamber, and the wire rope is pressurized and lubricated, so that the grease penetrates quickly into the inner part of the steel wire andobtains full lubrication. The oil inlet is more convenient andtime saving by adopting fast connection.the steel wire rope clamp adopts hinge structure, which ismore convenient for locking and sealing

Brake Test Kit (BHC)

According to the requirements of OCIMF, the braking force of the cable car should be tested before delivery, every year, after repair or after other situations that greatly affect the braking force occur. According to the test results, adjust the brake properly to make the BHC 60%-80%MBL (minimum breaking force of mooring line). Ensure that when the external force applied to the brake is greater than the set braking force, the mooring cable can automatically slide out to prevent cable breakage and cable car damage.

· Hydraulic Cylinder

· Brake Test Kit (BHC)

· Hydraulic Hand Pump

Non-asbestos Brake Linings

Recommended Operating Range:

Sliding Velocity: <12M/s
Surface Pressure: <200N/cm²
Normal Temperature: <200℃
Instantaneous Temperature: <250℃

Available Size:

Nominal Roll Length: 10/15/20 Mtrs
Thickness: 5mm-30mm
Width: 30mm to 550mm

Processing instructions: This product can be used normally with general cutting tools, but for large-scale processing, hard alloy tools need to be selected.

General note: The above test results and parameters are from the laboratory, and the above parameters cannot be used simultaneously at the limit state. The final parameters should be based on the actual values after installation.

NON ASBESTOS MATERIAL

Structure Materials
1.Viscose fiber
2.Glass fiber
3.Brass wires
4.Adhesive resin
